Precisely. We offered to clean it up and put it under our banner, but it was declined. Understandably, speed was of the essence.

I can say that as the FIs started to bring back more and more questions about spelling inconsistencies of POIs vs account holders with names, DOBs, etc we did disclose just the name/dob/address information on RCMP letterhead with corrections. We didn't have a conduit to confirm or get corrections from OPS so Shannon ran down the answers and we disclosed (attached).

Perfect thanks..

I won't elaborate too much into it because at the end it was not our responsibility to double check.

However I can only imagine this will surface during the inquiry.
